Datasheet

WMS
Wardle Marine Services Ltd

RotoDock is easy to install and suitable for a wide range of applications from small private pontoons to commercial work platforms and full marina's

RotoDock HDPE pontoon modules create a robust, stable and versatile pontoon system that is virtually maintenance free.

RotoDock modules are available in 4 standard sizes: 1.0m x 1.5m, 1.0m x 3.0m, 1.5m x 3.0m, and 2.0m x 3.0m allowing us to build pontoon systems in virtually any shape and size.

We stock an extensive range of mooring attachments to ensure that we provide the very best system for your location. These include anchor attachments, pile guides, stiff arms and heavy duty cleats.

Our expert team will design the best mooring system for your specific location and pontoon requirement,

There is a wide range of accessories available for the RotoDock pontoon system including cleats, fenders, hand rails, access ladders, seats, slides, lights, storage boxes plus many more.....

The units can be connected together in any orientation using the RotoDock Composite Couplers. These easy to install couplers allow the units to flex individually prevent damage to the pontoon whilst still creating a robust and stable joint.
