

# Modular Cube pontoons

Hire and Sales

Commercial Datasheet

Robust and stable yet easy to installation, dismantle and reconfigure.

HDPE cubes that measure 500mm x 500mm x 400mm with a connection lug on each corner. The cubes are then connected together using a locking HDPE connection pin. The pontoons can be virtually any shape and size with cubes quickly added or removed as required.

Manufactured from HDPE the system is maintenance free and impervious to any corrosion issues.

The cubes have a non-slip surface for added safety and ease of use.

Size:	500mm x 500mm x 400mm
Weight:	7kg
Compression load:	Over 3500kg/sqm
Load capacity:	Over 350kg/sqm
Material:	High Density Polyethylene
Manufacture:	Blow moulding
Diagonal lugs tensile strength:	Over 1950kg (test speed 50mm/min)

Modular Cube Pontoon Systems have a wide range of uses including: Fish Farms, Working Platforms, Bridge Repairs, Pumping Platforms, Marina's, Sailing Clubs, Drive On Docks, Access Ways and many more.

We hold a large stock of all items available for both sales and long and short term hire, and offer a full installation service including all moorings and associated works when required.

The cubes can be double or triple stacked to increase the SWL of 350kg/sqm per layer proportionally when required.

Optional accessories include: Hand Rails, Cleats, Fenders, Access Ladders, Winches, Mooring Eyes, and Piles Guides, Lifting Gantry's, lights plus more....

We also stock a wide range of access ramps, gangways and mooring equipment to provide you with a complete solution to your pontoon requirements.
